FOONG ZHI HIN

SOFTWARE ENGINEER

PROFILE

I am a Software Engineer with experience in feature development, bug fixing, and code design. I began as an intern and progressed into a permanent role, where I contribute to building and maintaining reliable software. I combine a solid software engineering foundation with a collaborative, practical approach to turning requirements into clean solutions.

PROFESSIONAL EXPERIENCE

Theta Service Partner Sdn Bhd

Software Engineer

Aug 2025 - Present

- Develop and maintain software features in line with project requirements and team standards.
- Investigate, troubleshoot, and fix software defects to improve product reliability and user experience.
- Contribute to code design decisions that support clear, maintainable, and scalable implementations.

Theta Service Partner Sdn Bhd

Software Engineer Intern

Feb 2025 - Aug 2025

- Supported the development lifecycle by assisting with implementation, bug fixes, and code improvements.
- Built practical experience in analysing requirements and collaborating with colleagues on software tasks.

ADDITIONAL EXPERIENCE

81GROUP Sdn Bhd

Software Tester Intern

- Created test plans and test cases from project requirements, executed functional tests, and reported defects.
- Verified fixes and helped confirm that resolved issues met expected quality standards.

QC Fixer Solutions

Content Writer & Graphic Designer (Part-time)

- Wrote and translated content, and produced visual assets including logos, infographics, banners, advertisements, and social media graphics.

SELECTED PROJECT

SummaSphere - AI Summarize Mobile App

Final Year Project

- Conducted requirements analysis, trained an AI model, created a prototype, and developed the system based on user needs.
- Created test cases and performed functional testing to help ensure the application met its requirements.
